

Insight Metering Systems Ultrasonic Meter Application Form

Customer Name : _____ Company: _____ City/State: _____

Customer Type: End-User EPC Reseller Integrator

Project Type: New Installation Revamp Upgrade old USM Replace other Technology

Market Segment: Well-Head Transmission Distribution Storage Power-Gen
 LNG Gas Feed Processing

Application: Custody Transfer Non-Custody Check Metering Operational
 Balance Efficiency Leak Detection

Fluid Type: Natural Gas Clean Natural Gas /Wet (well-head) Natural Gas Sour (off-shore) Liquid

Operating Conditions:

Flow Rate : Normal: _____ Min: _____ Max: _____ Units: _____

Pressure: Normal: _____ Min: _____ Max: _____ Units: _____

Temperature: Normal: _____ Min: _____ Max: _____ Units: _____

Gas Composition: If off-shore application only - Specify content: CO2 %/ppm: _____ H2S%/ppm: _____

Pipe (NPS) / Line Size: _____ Material: _____ Pipe Sch: _____ ANSI Rating: _____

Design Max Pressure: _____ Design Max Flow Rate: _____

Project Requirement: Meter Only Meter Run

If Meter Only : Include HP Calibration (Recommended for custody transfer) Do Not Include

If Meter Run: Include 3 Section Meter Run, Flow Conditioner and HP Calibration: CEESI: TCC

Optional Instrumentation:

Flow Computer: Existing By others Specify: Low Power Field Mount Panel Mount Other

Gas Chromatograph: Existing By others Specify: C6+ C9+ Other:

Notes: _____

Filled By: _____ Phone #: _____ Email: _____
